GoToConnect
Powered by Jive

POWERING BUSINESS AS USUAL.

Communications continuity tools to help your customers through the unexpected.

A GoTo for remote work

GoToConnect is a single cloud platform that can immediately solve business continuity concerns as you and your employees are forced to go remote. Enable every employee to communicate, collaborate, and continue working from anywhere, using any device.

Never miss a call

GoToConnect delivers communications continuity that is ready when you are – with no upfront costs, no need to remove existing on-premises solutions, and no required hardware.

- **Quickly configure and deploy** a GoToConnect dial plan. It's simple and intuitive.

- **Seamlessly forward** existing business telephone numbers to GoToConnect's cloud-based, virtual PBX and immediately make and receive calls from your existing business telephone numbers.

- **Make any meeting a video meeting.** Every GoToConnect license comes with HD video conferencing for no additional cost. Continue meeting face-to-face as internal teams, as you support your customers, and as you work with prospects.

Trust the Leader

GoTo is the only solution to be recognized in the 2019 Gartner Magic Quadrant for both meetings and unified communications. Our cloud unified communications and collaboration tools are supported by ten international datacenters and deliver HD video, crystal clear audio, and industry-leading availability and uptime. Join millions of active users who trust GoTo with their business every day.
